Seagrave Built to Save Lives

THE CORNELIUS-LEMLEY FIRE RESCUE DEPARTMENT WAS RESPONDING TO A CALL IN THEIR 2005 SEAGRAVE WHEN THEY HIT WET AND ICY ROADS AND THE APPARATUS ROLLED OVER.

"I am very pleased to let all of you know that all four of our firemen walked away from this accident with no injuries. This is truly a blessing and we can attribute it to the strength of the cab of our apparatus. As many of you know we have always stood behind our steel cabs as being one of the safest in the industry and today it saved four of our men's lives."

- Guerry N. Barbee, Deputy Fire Chief
Cornelius-Lemley Fire Rescue, Inc., Cornelius, North Carolina
